

FOREST SCHOOL, RG41 5NE

You are welcome to park on site at the school, please be considerate of others and park in marked bays only.

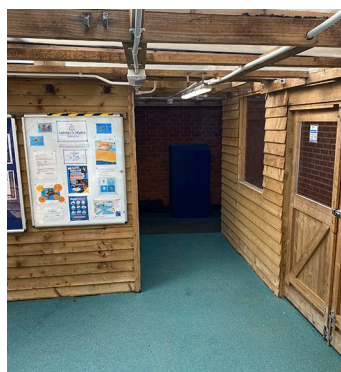

When you have parked, follow the road to the right (the library building will be on your right hand side), turn left and keep walking until you can see the pool in front of you.

Walk through the large gate, turn right and enter the pool hall through the wooden doors.

To access the changing rooms, turn left once inside, walk through the door to your right and into the changing area.

Female changing

Please DO NOT use the first changing area as you enter; walk through to the back where there are female and male changing rooms.

Male changing

We are running Swim Academy lessons alongside Baby & Pre School and will have older children changing. It is a safeguarding issue if we have children and parents changing in a communal area where others are moving through.

There are plenty of showers and we ask all customers to please shower before entering the pool.

We suggest all little swimmers (Floaties and Splashers) to wear an extra layer to ensure they remain warm. This could be a baby wrap wetsuit, thermal top, or an all in one neoprene nappy wetsuit
