

Directions to Coldstone House, Ascott-Under-Wychwood

DIRECTIONS

- Coldstone House is on Shipton Road in Ascott-Under-Wychwood. It is on the bend of Shipton Road, on the outskirts of the village along from the Village Hall (Tiddy Hall).

If coming from Shipton-Under-Wychwood (or via Shipton Road)

- Follow the Shipton Road into the village of Ascott-Under-Wychwood, the road then bends to the left. As the road bends to the right into the village itself, you will have Coldstone House on your left and a private road opposite you. If you follow the bend to the right and get to the Village Hall (on your left) you have gone too far and the entrance to Coldstone House will be behind you.

From Ascott-Under-Wychwood (via London Road)

- Driving through the village of Ascott-Under-Wychwood, you will go past Windrush Village School on your left and turn onto Shipton Road (on your left near the train station). You will go past The Swam pub on your right and Tiddy Hall on your left and the entrance to Coldstone House will be front of you before the road bends around to the left.

PARKING

- We have a set system for parking, and this is by class time. You will need to ensure you come to your lesson no more than 5-10 minutes before, as parking will be in line formation.
- You must go through the first gate at the start of the drive, second gate by the house and then through a third gate in the stable yard (see images below for reference).

- Park in single file, one car behind the other along the track. At the end of your lessons all cars are to follow the track away from the house.

- **Please do not park on the parking area in front of this house as this is not for us to use.**
- There is parking on the road up the hill in front of the house. There is room for about 4 cars here and then further up the road where it widens out there is more room. If you need help please do ask the Poolside Assistant on the day.

- NB. Parking on the bend must be avoided if parking on the road near the property. Please ensure that you are parking responsibly and not blocking any footpaths or driveways

FINDING THE POOL

There are currently building works at Ascott so there is an new way to access the pool.

Access will be through the stable yard and the gates (to the stables themselves). Immediately after the wooden gates you will turn right and there is a grey/green door to your right which will take you into the pool building past the toilet.
